"The Rhythm of Business" introduces an alternative concept - that starting a business in an already pioneered market is also good thing. "The Rhythm of Business" is based on the principle that customer interaction is the most critical part of running a curlyshue.coms: 8. "The Rhythm of Business" is based on the principle that customer interaction is the most critical part of running a company. The author uses the analogy of comparing business decisions to a dance. Most companies that startup usually have to modify their original "vision" in order to become successful/5(8).

The Rhythm of Business identifies and describes the natural development process which all successful business people use intuitively when starting and running a business.
