In my philosophy, garden is a verb; it is what you do. And, gardening is a noun that describes not what you did, but what you got when you gardened. So, if gardening is the therapeutic benefit that you receive when you garden, your goal should be to get as much gardening as you can, and with luck, as much as anyone. Nor is the use of modern processed fertilizers permitted; fertilizer is instead obtained from natural plant and animal byproducts. Organic gardening, as a philosophy, is applicable to xeriscaping, native plant landscaping, wildlife gardening, and all other gardening systems. Permaculture. Especially, why create a garden in an unpredictable and often harsh environment, as the cold climate garden in the High Sierra can be? Some obvious answers are to enjoy the beauty of it, to landscape and add to the presence of a home or property, to grow and produce food, to control erosion and contribute to a healthy soil. That is the intriguing question to which David Cooper seeks an answer in this book. Given the enthusiasm for gardens in human civilization ancient and modern, Eastern and Western, it is surprising that the question has been so long neglected by modern philosophy. Now at last there is a philosophy of gardens. My Gardening Philosophy of Life in Full Color A few months ago I embarked on the adventure of a full website redesign. During the process, I took a step back and examined what it really means to be a creative vegetable gardener.
