Peter G. Hessler is the president of Construction Business Associates. With over 40 years of domestic and international construction management experience, Hessler is a highly sought-after consultant, lecturer, teacher, and subject-matter expert on a variety of projects in the power generation and chemical process plant construction curlyshue.coms: 1.

This timely second edition of Power Plant Construction Management: A Survival Guide is revised and updated to include new technologies, evolving regulations, and the changing power generation mix between gas and coal plants. Hessler expands upon the first edition and provides a thorough plan for managing the financials of building a power plant.5/5. A unique set of management skills is necessary to supervise construction or retrofitting of a power generation plant, given today's bottom-line emphasis on environment, fuel efficiency, up-to-date technical features, and the industry's loss of experienced craftsmen and supervisory personnel. Information has been obtained from sources that are believed to be reliable. Neither the author nor any of the quoted sources make any warranty, express or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, apparatus, product or. Power Plant Construction Management: A Survival Guide Veteran mechanical engineer Hessler offers economic guidance and support to people charged with managing the building of a new power plant or the rebuilding or modifying of existing curlyshue.com: \$
